- Local contractors/suppliers should be used where possible.
- Applicants should provide their own funding towards the event/project and secure other sources of funding/income where possible.
- Detail the costs of the project as a whole and not just the expenses funded by the City of Stirling grant.
- List each item/supplier on a separate line.
- Include fair rates of pay for contractors.
- It is recommended that you receive more than one quote for items over \$1,000.00
- Your budget should be presented by major line items and in enough detail for assessors to consider it within the competitive assessment process.
- You must refer to the program guidelines for information on what is eligible for funding.

We understand that there may be price fluctuations with some budget items, and therefore the amounts and attachments provided as evidence will be used more as a guideline for expenditure. Cash expenses should not include:

- Recurrent operational costs including, but not limited to wages, salaries, or administrative overheads
- Fundraising activities
- Costs for items/activities already purchased or commenced
- Capital works
- Projects or events for commercial purposes
- The purchase of equipment that is not specific to the activity

Please do not add commas to figures - e.g. type \$1000 not \$1,000 - this will ensure your figures for each table total correctly.

### Income

Please outline activity income in the table below. Example income items might include:

- Other grant funding
- Internal funds
- Fundraising
- Ticket sales

Applications from Small Business, Schools and P&C's must demonstrate matched funding. Please include any in-kind support you are providing and give an estimated value of this support. How much would you have to pay for these goods and services if they were not being provided free of charge?

This could include things like volunteer hours and donations of space and materials.

Please detail how you calculated the amount. The calculation of your in-kind contribution is based on your best estimates.
